

*The Grande Flamme Millenium 975-5M (formerly 950/5-S) combines high volume and fast cooking time with low energy consumption. This counter-top unit is available in gas or electric and cooks 20 chickens per hour.*

With its visible flame, its powerful halogen light and its French design, the 975-5M offers a dramatic display, which makes it an incredible merchandizing tool.

The Grande Flamme features a **unique cooking system**. The adjustable spits allow you to roast to perfection from Cornish hen to whole lamb. The independent spit motors as well as the two independent burners allow you to cook on any selected spits without having to switch on the whole unit. The multiple spit motors also guarantee that your rotisserie is operational at all times! Inside side panels are removable for easier cleaning.

The 975-5M can also be split into two independent compartments with a middle drip pan, allowing you to cook different products at different temperatures and with no risk of cross-contamination by dripping juices. The stainless steel burners patented by Rotisol have a lifetime warranty and offer unequalled efficiency.

GRANDE FLAMME MILLENNIUM REF:975-5M
